

# IN THE SADDLE

## A Night Ride Among the Mountains of Ventura.

THE SPOT WHERE JEFF THOMPSON LIES

Arriving at the Place of the Burial—

Scenes—The Reception and the

Homeward Journey.

SPECIAL CORRESPONDENCE OF THE TIMES

SAN BERNARDINO, Aug. 17, 1886.

I want to bring before your readers a

trip—the widest imaginable—which I

took with the corner last week. We

went, as you know, to look into the

matter of the accident shooting of

young Jeff Thompson, at the Malibu

place. Leaving Ventura at noon, we

rode out through the heat and the dust

of the Santa Clara valley, reached

San Paula at 2 o'clock, and then went

on up into the narrow cañon of the

Sepe—where that stream springs

fall-born from the everlasting hills.

There were only two of us—Conner

Levy and myself. Just at sundown we

made the last launch in the Sepe cañon

and bought for ourselves a supper and

for our horses a feed of rich valley hay.

The night shadows fall rapidly among

the mountain peaks, but there is an

ellipse of a moon in the sky, and

after supper we bring our horses

across the cañon, and ride down across

the flat and into the cool waters of the

Sepe for one long, refreshing drink.

A sharp turn to the right and we enter

the rugged, narrow jaws of the Little

Sepe, and for a long mile our road

lies among the jagged boulders in the

stream's bed. Bugged walls, softened

in the warm moonlight, tower high on

either hand, and at each turn the

cañon seems to grow deeper and

more gloomy. The night is a

gentle, lowing cattle. Beautiful! It is

lovely as a land of fair promise—and

again and again the fact glows in the

night, trusting to the unerring instinct

of our mounts. Nobly is our trust

repaid, for, when we reach the place

as though searching for the trail, turning

and twisting as the cañon turns and

again and again the fact glows in the

night, trusting to the unerring instinct

of our mounts. Nobly is our trust

repaid, for, when we reach the place

as though searching for the trail, turning

and twisting as the cañon turns and

again and again the fact glows in the

night, trusting to the unerring instinct

of our mounts. Nobly is our trust

LOS ANGELES, SATURDAY MORNING, AUGUST 21, 1886.

## NEIGHBORHOOD NEWS.

### PASADENA.

#### REAL ESTATE ON WHEELS—RAILROAD MATTERS.

Correspondence of the Times.

PASADENA, Aug. 20.—Mindful of the transitory state of this subitany existence, one of our real-estate agents is having an office built on wheels, so as to be prepared to change location as often as his leased ground changes hands.

A party of pleasure-seeking young men, of which Hancock Banning, of this city, Dick Lacey, of Los Angeles, and Dr. Kellogg, of Alhambra, are component factors, will sail from San Francisco for Australia on Saturday of next week, just for a bit of a cruise there and back.

Lindsay Bros. are at work fitting up Crickshanks' new dry goods store in the Exchange block, ready for occupancy next month. It is safe to say that the firm will open on in handsome style in the new quarters.

The lumber is on the ground for the new passenger depot of the L. A. and S. G. V. R. R. at the crossing of California street. The site is 300 feet south of the street, and to secure a good stoppage grade there the road bed will have to be raised about two feet for some distance. The depot will cost about \$1500, and is to be a handsome structure. The company's new freight engine will be out from the East soon. No. 1 has just come out of the shop, looking trim and neat in its fresh coat of varnish. The late receipts of rails have given track-laying an impetus, and the work has been pushed beyond Falling Leaf avenue, with the prospect good for an early entrance into Montevia.

The Los Flores water company is seeking to increase its efficiency and average matters, between the users of the east and west pipe lines by securing deeds from individual pipe owners and asking for enlarged powers as to the distribution of water, repairs of works, etc.

An Eastern man has made a proposition to spend a considerable sum of money in developing the water on Messrs. Yocum's and Vail's property across the Arroyo Seco.

Pasadenians take notice of the arrangements for bringing members of the impending Republican State Convention up here on an excursion and will be prepared to prove to them that Pasadena should be the capital of the future State of Southern California.

### ONTARIO.

#### PIPE-LAYING—WATER DEVELOPMENT—CROPS.

Correspondence of the Times.

ONTARIO, Aug. 20.—N. W. Stowell is now actively engaged in putting his pipe-camp in order, preparatory to the turning out of a great many miles of stone piping for immediate use in the colony. In this camp, as everywhere else in Ontario, everything betokened activity. Mr. S. has a contract just entered into with the Land Company for a vast quantity of his pipe, and will commence turning out the "joints" just as quickly as it can possibly be done. Mr. Oakley is already at work getting ready the ditches for the reception of the pipe, he having secured the contract for that work.

The surface flow of water was officially measured at the Cañon the other day, and it was found there were 1200 inches. This, be it remembered, is the surface flow. The tunnel has already developed several hundred inches in addition, and will undoubtedly develop a thousand or so more. Talk about water. San Antonio Cañon contains literally oceans of water, and that of the purest and best obtainable anywhere on the continent. Hundreds of inches are constantly running to waste, notwithstanding that this is the driest season of the year.

The Milaga grapes here are doing wonderfully well, far surpassing every one's expectations; in fact, their productiveness is simply phenomenal. Vines only two years from the cuttings are loaded with large, heavy clusters. It is worthy of remark that those which are doing the best have never been irrigated. The Salinas are also bearing well the second year, something quite unusual. The Muscats are likewise making a good showing, but they are, of course, expected to bear the second year.

Several car loads of raisin grapes have lately been received at the station and distributed among our vineyardists.

Mr. Nichols, of New York, was here the other day, visiting his old friend, O. D. Adams, and taking in the beauties of Ontario.

Mr. Root is spending a fortnight at Catalina.

G. A. R. delegates Morton and King have returned from Frisco.

Rev. Mr. Bodkin, having taken his season of leisure, is again attending to his pastoral duties.

### SANTA ANA.

#### THE G. A. R. ENTERPRISE—GRAPES.

Correspondence of the Times.

SANTA ANA, Aug. 19.—Monday morning the rain began falling gently, and continued so at intervals during much of the forenoon.

A large excursion party left here Monday to greet the veterans, and help if possible, to make their visit in Los Angeles more agreeable.

O. Chamberlain, one of our leading hardware merchants, and one of our most respected citizens, died early Monday morning of consumption, and was buried Wednesday afternoon.

Mr. Elmore, the gas man, is here and has secured \$22,500 worth of stock. He is now pushing the work, and says he will have gas in town by October 1st. Pipe is being laid in the streets, and the excavation for the gasometer is nearly complete. Our citizens generally are in favor of giving gas a fair trial in their business houses or residences. Work on the street railway has come to a stop

for the present, owing to the non-arrival of rails to complete the work. Santa Ana is making real progress. Incorporation, street railroad and gas—all the work of less than six months.

William Spurgeon is fixing up the new postoffice in fine style; the boxes are to be of the most approved pattern. The Santa Ana Valley Packing Company have a large number of hands picking and packing grapes for the eastern market. They expect to do an extensive business in the way of shipment by preparing grapes for shipment in three new patent coolers.

Mr. Lyon, the man adjudged insane by Judge Brunsen, and sent to Napa, has been released and is again in our midst. Dr. Drake's brother-in-law came from Ohio and secured his release. He proposes to take him East where he can rest among his kindred. The doctor thinks he will soon be all right again.

The trustees of the Baptist Church have the repairs on their church building nearly completed. When finished this will be one of the best looking churches in town.

Many are still camping.

### LUGONIA.

A VISIT FROM THE GRAND ARMY.

Correspondence of the Times.

LUGONIA, Aug. 17.—This has been a red-letter day for Lugonia and the adjoining settlements. Ever since we learned of the intention of the G. A. R. people to return to San Bernardino after their big day in Los Angeles, our people in this cluster of settlements, including Lugonia, Redlands, Crafston and Old San Bernardino, have been anxious to have them drive out in this direction, in order that they might see the country and partake of the hospitality for which our people have become justly noted. According to a committee was sent to San Bernardino yesterday to arrange with the people there, to have as large a delegation of our honored guests as could be provided with conveyances, drive out through the old Mission, thence through Redlands and on to Lugonia, stopping at the Terrace Villa for rest and refreshments. To day the programme was carried out and a very enjoyable time was had by both guests and hosts. The day was a delightful one, the air being tempered to a refreshing degree by the usual sea breeze, and the visitors were greatly pleased with the beautiful views to be obtained from this portion of the valley, and we are not at all backward in commending the lavish display of fruit and flowers, as well as the fine collection which our ladies had prepared for them during the short time since we learned of their intention to visit us.

Among our worthy fellow-townsmen who brought out a number of the guests in their private conveyances we were pleased to notice R. W. Waterman, H. L. Drow, James Waters, Jr., Dr. J. H. Pearson, R. H. Stetson, and a number of our own people, who met them at the train, and carried them back to San Bernardino after their short stay at the Terrace Villa. Several of the number who visited us belonged to the Modoc Club, and, as they were billed for a concert in the Opera House in the evening, they were obliged to leave at an early hour; and as this about coincided with their visit, we are quite sure they will return to their homes carrying with them many pleasant recollections of their brief visit to the east end of the Santa Ana valley, as well as other places on the Pacific slope.

### SANTA ANA.

Correspondence of the Times.

SANTA ANA, Aug. 20.—Two run away this week have kept things from getting too dull and quiet. The first was a stone boat and barrel, which got frightened and ran with the horses; the next was an Oliver chilled plow. This should be a warning never to leave either of these implements in the field unattended.

J. H. Keroheval, head clerk of the bridge-building department of the S. P. R. R., who owns a place of thirty acres, made a flying visit from Oakland this week. Mrs. Green, who is an employe in Robins' dry goods establishment in Los Angeles, accompanied by her son, who is an invalid, have been spending two weeks at Sierra Madre.

P. S. Reed, of Sierra Madre, who owns a separate water right, has been offered \$1.00 per inch for all he will sell from his 6.5 m. This shows the value in which the life-giving fluid is held in this part of the State.

W. S. Andrews, who has a 20-acre place on the corner of Sierra Madre and Central avenues, has ordered the lumber and will build at once a building, 32x20 feet, with two rooms in the rear and veranda on the front, on the north east corner of his lot fronting on Central avenue. The building will be fitted up in good style, internally and externally, and a stock of general merchandise and groceries put in. O. C. Andrews, brother of W. S. Andrews, will have charge of the business. Such a store is very much needed here, and the character of the gentlemen seems a reasonable guarantee of its success. B. B.

### SAN GABRIEL—ALHAMBRA.

CROPS AND PERSONALS.

Correspondence of the Times.

SAN GABRIEL, Aug. 20.—Mr. Harbert has sold his crop of wheat, consisting of 1800 sacks, to the Capital Milling Company.

D. C. Walters is erecting a meat cottage on his property purchased from Mr. Kingsley.

As the months of August and September are the best to spray for black scale, many orchardists are getting their machines in readiness.

Quite a delegation of G. A. R.'s went to town on Monday to participate in the procession.

Last Friday the ladies of the Methodist Church had another pleasant path

ing in the form of a "pound social." The hall was comfortably filled, and after the first part of the evening was spent in having a general good time, the team was served and the "pounds" auctioned off.

Mr. Ames announces that he will buy vegetables and melons, packed and delivered in good order at the San Gabriel depot. This is a new enterprise, and it is hoped Mr. Ames will make a success of it.

Dr. Kellogg leaves for San Francisco on Saturday, whence he will go to Australia. He is accompanied by Hancock Banning, of Pasadena. Before their return they expect to visit several islands of the Pacific. Dr. Card will attend to the doctor's practice.

Mrs. L. B. Halsted and daughter are spending a week at the beach.

### PROXY.

### COMPTON.

OPEN LODGE—NEW WARHOUSE.

Correspondence of the Times.

COMPTON, Aug. 18.—The U. O. G. T. will have open lodge on the 26th inst. After a short literary programme, ice-cream will be served.

A grand ball will be given by the Compton brass band on the 26th inst. Three warehouses, with a capacity of 20,000 sacks, not being sufficient, M. N. Newmark is building another, that will hold 20,000 sacks. Messrs. Weaver & Newton alone will fill the new building and it will require another to store the balance.

The grain wagons are pulverizing our roads.

The grain is turning out better than expected.

Mr. Packard has erected a neat cottage on his 85-acre farm, two miles north of town.

J. Murphy is building a new dwelling on his home place, two miles west.

Miss Joe Stetson was married to John Willitt on the 12th inst.

Thomas Barton has also done good and done it. He is also a married man. Jessie Bromer, which was, is now the happy bride. G. A. M.

### ORANGE.

FINE GRAPES—PERSONALS.

Correspondence of the Times.

ORANGE, Aug. 19.—McPherson Bros. are graveling the streets in their new town.

The Orange school-house, with its large force of workmen, is progressing rapidly.

The Democratic primary, held on the 16th at the Water Office, elected as delegates to the county convention Messrs. Jenkins, Wood, Hager and Gardner.

Regular services will commence at the Presbyterian Church Sunday, the 22d. Sunday school at the usual hour.

Quite a delegation of veterans paraded in the parade at Los Angeles on Monday, and many of the citizens attended as spectators.

The Muscat or raisin grapes are some of the very fine this year. We have seen specimens of single grapes measuring 4 1/2 inches in circumference, and clusters which weighed 2 1/2 pounds.

Mr. and Mrs. Stone, of Oakland, Mr. Bond, of Santa Barbara, and Mr. Oge, of San Francisco, are in the neighborhood for a few days.

Mrs. Bernhardt slept on a dunce cot, with the black of a Brazilian cell above her, for horsewhipping one of her women, with whom, tiger-cat fashion, she had quarreled.

Mrs. James Brown Potter denies the rumor that she will go on the stage next season. She intends to accompany her husband on a trip to India.

### Los Angeles & San Gabriel Valley

RAILWAY.

Trains leave and are due to arrive at Downey Avenue Depot as follows:

Leave For	Destination	Arrive From
8:45 a.m.	Pasadena & Lancaster Park	10:20 a.m.

Trains leave and are due to arrive at

**LOS ANGELES**

AS FOLLOWS:

### Why Pomona Was Left Out.

The G. A. R. excursion to Pomona has been declared off. Messrs. J. E. McComas, Con. Howe and Capt. Thomas, appointed by Viceburg Post, of this place, and Stoddard Jones, of the First National Bank of Pomona, and Frank Miller, of the Hotel Palomares, on behalf of the citizens, did everything in their power to make the arrangements, and at one time the prospects were favorable for the excursion. Mr. Frank Miller went to San Francisco to confer with T. H. Goodman, General Passenger and Ticket Agent of the S. P. R. R. and to get rates from him. Mr. Miller called upon Mr. Goodman four times and could get no satisfaction on the subject, until only a few moments before he was to start home. Mr. Goodman then, in the presence of Mr. H. A. Palmer, said to Mr. Miller: "We have decided to give an open rate from Los Angeles to Pomona all next week for \$1 the round trip." Mr. Miller then got permission from Mr. Goodman to work the G. A. R. excursion train to Los Angeles, and had small posters printed for that purpose. On his arrival at Los Angeles he found that the railroad officials there had not been advised of the special rates made to him by Mr. Goodman, and after several hours, succeeded in inducing them to telegraph to Mr. Goodman to send instructions. After about twenty-four hours they learned that Col. Hewitt had been written to on the subject. Mr. Miller was now informed that he would be required to guarantee the sale of fifty tickets, which he did. In the meantime, Mr. J. E. McComas and Mr. W. E. Brott were getting out other posters to aid in working up the excursion. At about this stage instructions came that the tickets must be sold in blocks of fifty, necessitating the putting on of a special car to carry the excursionists. By this time, and at this late day, the committee who were working the matter up in Los Angeles had become disgusted with the much backing and filling of the railroad authorities and decided to give the matter up. Tuesday says that, after Mr. Miller had arrived home, his station agent here was notified by telegraph to inform Mr. Miller if he would go down to Los Angeles in the morning (yesterday), he could have the rates according to his original proposition. This concession came too late, as it would have been impossible to work up the excursion on such short notice. We fail to understand why Pomona should have been thus discriminated against by the Southern Pacific people.

### SMILES.

In point of personal danger, it is a flip of the copper between a delegate to a Democratic convention and a base ball umpire.

The coolness between Secretary Lamar and Commissioner Black is so great as to make the seat between them on the street car a very desirable one these sultry days.

A Baptist minister was once asked how it was that he consented to the marriage of his daughter to a Presbyterian. "Well, my dear friend," he replied, "as far as I have been able to discover, Cupid never studied theology."

The sea serpent has appeared off the coast near Norfolk, and has been heard to emit a "peculiar whistle." The long and mysterious disappearance of ex-Senator Lapham is now satisfactorily accounted for.—[Washington Star.]

A romantic young lady obtained recently the desire of her heart—she met the poet Laureate at dinner, and the sympathetic hostess even arranged that she should be placed next to him. One remark, and one alone, did the poet address to the gushing maiden at his side, and it was this: "I like my mutton in wedges."—[London Letter to Argonaut.]

The delay in arriving at an understanding with Mexico is at last explained. Mr. Adee is writing the dispatches. As Mr. Adee was the author of the immortal phrase, "innocuous despatch," it is feared he has fired a dictionary at the Mexicans and they are trying to find out what he means.—[Pittsburgh Chronicle-Telegraph.]

### A Big Water Scheme.

We learn from a reliable source that one of the largest and most important enterprises of which our valley can boast, has its foundation permanently planted. It is a well-known fact that there is countless trillions of gallons of water during the winter season that flows down the San Dimas Canyon and through the center of thirteen or fourteen thousand acres of beautiful land, well situated for making happy homes, orchards and vineyards. These facts, together with the great natural advantages of storing water by means of reservoirs, have directed the association of men and money for the purposes of building several immense reservoirs, and to conduct the water to the large section of dry land, which we take occasion to state, is within easy distance, and over a practicable route to the land. The work of this valuable addition to our county has but just commenced. Through the agency of Col. Brooks the camps are being established, road, fuel, etc. Tools of a suitable character for the work are to be shipped this week. In the future and from time to time, we expect to present the public with further facts of this meritorious movement.

### A Little Heart Trouble.

"John, dear," said the young wife, looking up from the paper she was reading, "I see that people carry chestnuts in their pockets to cure rheumatism."

"Yes, dear."

"Is it customary to carry things in the pockets to cure diseases?"

"It depends upon whether the person afflicted is superstitious or not."

"Because, when sewing a button on your vest, yesterday, I discovered a quantity of cloves, coffee-beans, cardamon-seeds, flag-roots and other things in one of the pockets. Do you

carry them as a remedy? Is there anything the matter with you, dear?"

"Yes, my dear," said John, stammering, and turning as red as a boiled lobster. "I—I think I have a little heart trouble."

"Poor fellow!" she said, as tears came to her eyes, you never told me a word about it."

### STATE AND COAST.

The salmon run is improving a little in the Sacramento, but scarcely enough to speak of.

The movement of wool from Oregon and Idaho will probably exceed 10,000,000 pounds this year.

Miss Mattie Allison, of Albany, Oregon, indicted as an accomplice in the murder of Charles Campbell, has been lodged in jail at Salem.

The St. Helena Cal. Star says: Deer are said to be doing considerable damage in the hills, east of town, destroying vineyards, vegetables, gardens and young orchards.

Professor Smedley of San Francisco, who has been roaming over the hills in and around the Paso de Robles ranch, gathered over 500 pounds of whale bones, petrified fish, oyster shells, etc., and shipped the same to the city.

### A Pomona Fruit Case.

Pomona Progress.]

As an instance of what may be done in the way of raising small fruits we may refer to H. H. Williams, whose experience the past season is worthy of mention. From one-half acre of blackberries he has this year harvested 3000 pounds of berries, which he sold here at two cents a pound, giving him \$180 from the one-half, or gross profit of \$360 per acre. He performed most of the work himself, so that his expense was light. Small fruits will pay handsomely in this valley, if properly attended.

### The Los Angeles Nine.

Ventura Free-Press.]

Robert Elwell has returned from his baseball tour of the northern part of the state. He says that the reason of the defeat of the Los Angeles Club in San Francisco, was that they played every game there with the same nine, under different names. Harvey Walbridge remained in Los Angeles to arrange for a series of games down there with the San Luis Obispo and San Diego nines. When these games are made Robert will return to the City of the Angels to play.

### Better Hurry Up.

Boston Post.]

Defaulters seem to be getting to Canada at the rate of one a day since the announcement of the new treaty provisions. If the Senate does not make haste and ratify the treaty, we shall soon have none but honest men this side of the border.

# The Mirror Sewing Machine.

\$18 for a \$65 First-Class FAMILY SEWING MACHINE

The Sewing Machine of which the above cut is a perfect illustration, the regular price of which is \$65, is manufactured for our special use, and is offered by the LOS ANGELES WEEKLY MIRROR only to its present subscribers, or to persons desiring to be subscribers. The price of the machine to any such is

**ONLY EIGHTEEN DOLLARS**  
With One Year's Subscription to the 'Weekly Mirror.'

The furniture is of the nicest finish. Each machine has a box cover, a drop-leaf table and five drawers; also a full set of the latest approved attachments and necessary instruments, viz: One Foot Buffer, one set Hemmers, one Tucker, one Foot Hemmer or Feller, one package Needles, six Bobbins, Sewer Driver, Oil Can, extra Check Spring, extra Throat Plate, Gauge screw Wrench, Instructions.

THE MIRROR guarantees that it does all work that any sewing machine does, and does it well. That you get a full line of attachments free, the regular retail price of them being \$5. That the machine is well made and handsomely finished. That you will be pleased with the machine in every particular. That if you ever had a Singer machine you will know all about running this one, as it is simply a Singer machine, lock-stitch, tension and all, with some improvements on the Singer.

This is less than one-half the price similar machines are selling for throughout the country. The machines are very nicely finished, perfect in all respects, and guaranteed to give satisfaction. Agents' and Dealers' profits can be saved, and one of the best machines obtained by ordering of us. Each machine is guaranteed to give satisfaction, or it may be returned by freight ten days after the subscriber receives the machine, and money refunded.

### HOW TO ORDER.

When you remit us the \$18 for the machine and WEEKLY MIRROR one year, write plainly the name of the machine to be shipped to, as well as the address of the paper to be sent to. The machine should be ordered to the nearest railroad point where the railroad company has an agent stationed, and the name of railroad station, the county and State should be stated. When \$18 are sent for the WEEKLY MIRROR one year and the machine the freight charges from the factory are to be paid by the subscriber, in addition to that amount, at the point machine is delivered at.

We would advise subscribers to order the machine sent by freight, as the freight charges are about one-third to one-fourth of express charges; and, while the time taken in the carrying of machine is a little longer, they go just as securely and safely as by express. The machine will be shipped direct from the manufacturer, Chicago, all set up ready for use. Money must accompany order. Address:

THE TIMES-MIRROR COMPANY,  
Los Angeles, Cal.

## WEST COAST LAND COMPANY,

San Luis Obispo, Cal.

INCORPORATED MARCH 27, 1886.

Capital. - - - \$500,000.

GEO. C. PIERKINS,  
JNO. L. HOWARD,  
ISAAC GOLDSTEIN,  
R. E. JACK,  
O. H. PHILLIPS.

### OFFICERS.

JOHN L. HOWARD, President.  
ISAAC GOLDSTEIN Vice-Prest.  
R. E. JACK, Treasurer.  
C. H. PHILLIPS, Secretary and Manager.

### The Paso Robles, Santa Ysabel and Eureka Ranches.

Recently purchased by the West Coast Land Company, are now offered for sale in subdivisions.

This immense body of land, including 12,000 acres more of the Paso Robles ranch, belonging to C. H. Phillips, comprises 64,000 acres of rich, virgin soil. It lies in a compact body, in the center of San Luis Obispo county, and is within from 9 to 20 miles of the sea coast. It is covered with white and live oak timber, is one of the most picturesque bodies of land in the State, and requires

### NO IRRIGATION.

It has an abundance of living water, and where not sufficient for domestic use, good water can be had at a depth of from 10 to 40 feet. It has an average annual rainfall of 21 inches, exceeding by 6 inches that of Santa Clara county, one of the most prosperous counties in the State.

The extension of the Southern Pacific Railway from Redwood southward traverses these lands for 15 miles, through at their entire length, placing the property within eight hours of San Francisco.

These lands are offered at from \$10 to \$30 an acre and are all susceptible of the highest cultivation. In salubrity of climate, productivity of soil and location as to market, they are equal to lands in Los Angeles and other counties, which readily bring from \$100 to \$500 an acre; and as to price and terms offer the best inducements to those desiring to acquire a part of the Pacific coast.

The field work of the subdivision is the famous

### PASO ROBLES RANCH

Has been completed. The maps and catalogues are now being prepared, and will be sent free on application.

This ranch, containing 20,000 acres, has been subdivided into 250 lots. It is 15 miles from the sea coast, and is 20 miles north and west from San Luis Obispo city.

This ranch was one of the earliest granted by the Mexican Government and having been held by the same party for 30 years has never before been offered for sale. It consists exclusively of land of the choicest character, and is second to none in the State for the production of wheat, wine, fruit, raisins and olives.

### TERMS OF SALE.

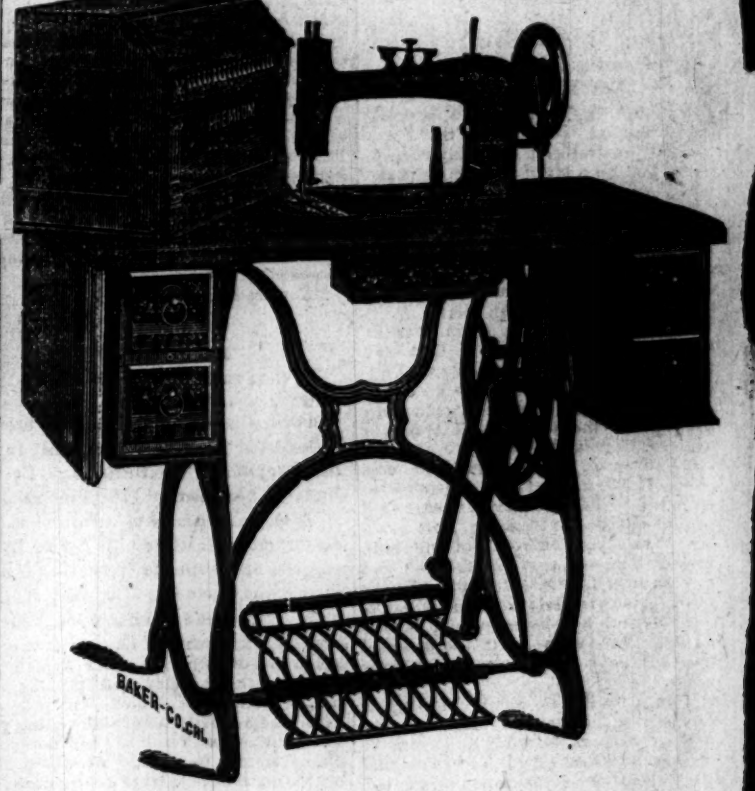

One-third cash; balance in 4 equal payments, at 2, 3, 4 and 5 years; interest 8 per cent. per annum. The mortgage taxes paid by the purchaser make the interest about 4 per cent. net to the purchaser. A deposit of \$25 will be required in all cases to cover expenses of an acre.

### C. H. PHILLIPS, Manager,

\$22 for a \$75 High-Arm Sewing Machine and the Weekly Mirror.

## THE MIRROR PERFECT AND IMPROVED HIGH-ARM SEWING MACHINE.

For \$22 this machine and WEEKLY MIRROR, postage paid, for one year.

This machine is the first of its kind ever offered the public at factory price, and cannot be bought from agents for less than the regular sale price, \$75. It is the high arm pattern, has self-setting needle; cannot be run backward; has automatic cut-off for driving belt which prevents it from being run backward, thus avoiding all danger of breaking thread or needle. It is a positive, high-arm machine, as compared by an illustration at the bottom of the instructions that it has everything so plain and simple that any lady or child can use it. We call it the MIRROR HIGH-ARM SEWING MACHINE, and we want it to give you any entire satisfaction in every case, or it may be returned to us within ten days after the subscriber has received the same, if it fails to be as represented, and the money will be refunded.

The above cut represents our HIGH-ARM MIRROR SEWING MACHINE, the very latest improved machine of the high-arm style; a complete embodiment of all the most recent improvements in sewing machine mechanism; a model secured by us after a careful and critical examination and test of the various machines in the market.

Having arranged with the manufacturer to supply us with these machines in large quantities for spot cash at our very best price, we can save our subscribers at least \$35 on the price of each machine.

As this is the first time a Sewing Machine of this character has been offered to the public at about manufacturers' cost, we feel confident our readers will properly take advantage of this opportunity to provide themselves with first-class high-arm machines, which obtained in any other way would cost them almost three times the amount.

We would fill several columns expatiating on the merits of this high-arm machine, but to save the reader's patience we will simply say that it contains all the modern improvements in strong, simple, durable, light-running and noiseless.

OUTFIT.—The machine is supplied with the following outfit: One Hammer and Feller (one piece), Twelve Needles, 15 Bobbins, One Wrench, One Quilting Gauge, One Sewer Driver, Oil Can filled with Oil, Cloth Gauge and Throat Plate, and a Book of Directions. The following extra attachments are also furnished free: Ruffler, Tuckers, Blindstitch, Set of white Hemmers and Binding Plate.

The regular retail price of this machine is \$75. Our price with a year's subscription to the WEEKLY MIRROR is only \$22!

Know the character of the machine and the high grade of material, and when a high-quality machine is offered to you, we have no hesitation in recommending it to you. We tell you, buy the high arm machine on trial, and if not satisfied return it. No agent can sell you an equal for less than \$75. Each part of the machine is fit and so such exactness that no trouble can arise if any part is broken, for a new piece can be supplied with an assurance of a perfect fit.

The high-arm machine is carefully packed and shipped by freight from Chicago. Freight, as usual, to be paid at point of delivery by the subscriber.

Give shipping directions plainly, as well as the Post-office address the paper is to be sent to.

For The Los Angeles Daily Times—Any person desiring the Daily and this Sewing Machine can have the same by remitting \$30.50.

### HOW TO ORDER.

When you remit us the \$22 for the Machine and WEEKLY MIRROR one year, write plainly the point the machine is to be shipped to, as well as the Post-office address the paper is to be sent to. The machine should be ordered to the nearest railroad station the county and State should be stated. When \$22 are sent for the WEEKLY MIRROR one year and the machine the freight charges from the factory are to be paid by the subscriber at the point machine is delivered to.

We would advise subscribers to order machine sent by freight, as the freight charges are about one-third to one-fourth of express charges; and, while the time taken in the carrying of the machine is a little longer, they go just as securely and safely as by express. The machines will be shipped direct from the manufacturer (Chicago), all set up ready for use. Money must accompany order. Address:
